

Architecture Graduate / Building Designer / Documentation Specialist

We are looking for a talented Architectural Graduate / Building Designer / Documentation Specialist with a passion for residential design to join a team of established designers working to achieve great client outcomes.

This job is for you if love designing homes and seeing them built.

In this role, you will:

- Join a team of experienced in-haus designers, builders, estimators and construction administrators in an exciting collaborative environment.
- Learn and contribute via insights and real-time feedback on design decisions through our design + build process.
- Build on your minimum of 3 years of Revit experience in practice, supported by excellent studio workflows.
- You will be at an advantage if you bring your existing knowledge of 3D rendering (Lumion) and Adobe products.
- Contribute to designing residential homes and experience liaising with clients and project stakeholders.

At Happy Haus:

- We are a fully integrated design + build company.
- Projects are new builds based on solid design principles
- We design for building efficiency in high-end homes.
- We work from our studio with parking in Brisbane's inner-north.
- We offer competitive wages, training, and social events.

Let's talk if you're looking for a change and would like to design homes with us.
