

## Construction Supervisor

We are looking for a talented Construction Supervisor who is experienced in their craft to join a team of established builders, carpenters, administrators, and designers who are all working to achieve great client outcomes.

We are a fully integrated design + build company. We design for build efficiency in high-end custom homes. We prioritise craft and quality.

This opportunity is for you if you live to create beautiful living spaces.

We offer a competitive salary package based on experience, including company vehicle, phone, and computer.

The role is focused on working with our construction teams, trade partners and suppliers to lead and deliver on all aspects of the construction process.

We are looking for an individual:

- To be a reliable and collaborative team member and have a highly organised approach to running projects
- Work effectively with trades and suppliers
  - Note: a high-quality trade base will be a distinct advantage
- To be solutions focussed on your approach to problem-solving
- Experience in the residential housing sector
- Experience in the use of other computer applications (i.e. Microsoft Office)
- Attention to detail.

You have experience:

- Construction of custom homes
- Residential construction supervising roles (5 years min.)
- Building on varied types of sites
- Guiding tradesmen, trades, suppliers
- Supporting clients through the build process.

Let's chat if you want to design new homes with us.
