

HappyHaus

Interior Designer

We are looking for a talented Interior Designer, experienced in their craft, to join a team of established designers, all working to achieve great client outcomes. We are a fully integrated design + build company. We design for build efficiency in high-end homes.

We prioritise our craft and quality outcomes.

The role is focused on working within our in-house design team to lead and deliver on all aspects of interior design, documentation, and selections. This includes:

- Design direction and documentation for all HH projects.
- Managing clients through our design workshop process.
- Delivering designs and selections that meet the brief and budget.
- Create design presentations for key stages in the design process.
- Knowledge of Adobe products and Lumion would be an advantage.
- Developing coordinated Revit documentation through liaison with the HH design team, project consultants and other relevant project stakeholders.
- Working with our existing suppliers and trades and nurturing long-term relationships.

You have:

- The ability to work in Australia as a 5+ years post-grad with experience leading residential projects.
- A good understanding of the National Construction Code and Australian Standards.
- Experience in Project Management, Consultant Coordination and liaising with client and project stakeholders.
- High proficiency in Revit with solid knowledge of Concept Design, Design Development and Contract Documentation.
- An understanding of design choices, materials, and the impact on budgets.

We offer competitive wages based on experience and are open to **Part-time, Contract and Flexible** working arrangements.

Let's chat if you want to design homes with us.
